Compression & Ventilation

2 in 1

CPR Modes
- Continuous compression
- Continuous & manual ventilation
- 15:2 - 30:2

Visible Compression
- High efficiency
- Low-harm
- Real-time display of compression depth

EtCO2 Measurement
- EtCO2 module (Option in E3)
- Detect ROSC
- Conform to the latest AHA & ERC guidelines

Portable
- Compact & lightweight (2.5kg)
- Easy to carry and quick install

Comprehensive solutions

Safe  Effective  Intuitive
A unique combination of 3D compression and ventilation to ensure maximum resuscitation efficiency.

### Easy to operate

1. Power ON Amoul® E3
2. Apply to patient
3. Start compression
4. Wireless connectivity to monitor the quality of CPR (optional)

### Easy to use

One-key to start compression. Intuitive screen, and adjustable compression depth and rate

1. EtCO2 port Charging port USB port
2. Gas inlet Ventilation port
3. Strap buckle
4. Portable backpack, easy to store and carry
5. Patient fixing belts
6. Lightweight Carbon Fibre oxygen cylinder with a working pressure of 20 Mpa
